In the lonely aftermath of unpacking, she wondered: Aren't we supposed to put down roots at some point? How does the place we live become the place we want to stay? This time, she had an epiphany. Rather than hold her breath and hope this new town would be her family's perfect fit, she would figu

What others say about this ebook:

Review 1:

Coming from someone who has been moving her whole life, this book has helped me know how to connect with my town and put down roots. This was well-researched, helpful, but also cathartic. Melody Warnick has a personable and engaging writing style. Would highly recommend.

Review 2:

I was hoping this book would help me to feel more at home in the city we moved to 6 1/2 years ago. It did not. We moved from sunny & lovely Santa Cruz, CA to rainy & dreary Oregon. Our reason for moving is much different from 30 & 40 year olds with children. My husband retired & we moved in 2009 to care for my dad who eventually died from Alzheimer's in 2014. My husband was diagnosed with cancer 2 mos after our move & I was diagnosed with a life changing illness in 2011. I tried all the suggestions. I volunteered, we joined the YMCA, ate & shopped local & more. People our age (in their 60s) have an established set of friends & are not looking to make new friends. It's beautiful where we live, the cost of living is much lower but it's still not home. I think the suggestions & examples are too simplistic and honestly believe there are places where people are just more comfortable.

Review 3:

I already love the city I live in, but each chapter inspired me with new ways to make it a community, a home. I don't just want to be a person who lives here, I want to be a part of it. Really great writing and solid ideas.

Review 4:

Inspiring. This book gives me a sense of control over my own happiness and a sense of optimism about making the place I live into the place I want to live. I will become the best me!

Review 5:

I loved this book! It was insightful and applicable to my life, really it would be applicable to anyone's life. I have lived in the west, east and now midwest and have found things to love about each place. This book takes loving where you live to a new level and had me laughing while also motivating me to discover why I should love my new place because, just like the author, we are moving again! I would definitely recommend reading, and think it would be an excellent choice for book club discussion as well.
