What others say about this ebook:

Review 1:

I loved this book, Cricket and Slade are two great characters that I enjoyed getting to know. They both had interesting backgrounds, plus with all the politics in this werewolf society it made it even more complicated. Throw in a maniac who wants to kill all the humans in the world; you have quite a story.

Lots of action both in and out of the bedroom in this book. Keeps you guessing and wanting to turn the page to find what happens next. Totally worth it.

Review 2:

This book would make an excellent movie. The characters are well-written and extremely articulate. The interaction and dialogue are quite interesting. Slade and Cricket are a remarkable couple. The plot is so very unique. Team Greywolf is wonderful and unique. What a team. Great novel!

Review 3:

Not really sure if i liked this book or not, but i did finish it. VERY different from other shifter paranormal books i have read.

Review 4:

I am absolutely in love with this new series. I cannot wait for more . Exciting , kept me so interested I didn't want to put it down. I was gifted this copy and I also bought it because I liked it so much. Wanting More.

Review 5:

Want a book that will have you just wanting to get to the end so you can know what happens but don't because then you'll miss it all? Well this is the one! It has it all romance, suspense and many surprises! Cricket is part of an elite squad but is also a runt but is also a beta in her pack. When she's assigned to watch Prince Slade who's in very bad shape from his entire pack being murdered she's less than thrilled especially since he's very much an alpha and she doesn't want to be submissive, enter snarky comments. When they go on a mission together to find missing werewolf alpha's it turns into more than could ever imagine. Will they survive and more importantly will they be able to be together even though an alpha and the lowest of the pack aren't supposed to mate?

This book was just amazing, I couldn't put it down. It had it all and I just loved how Slade and Cricket were together, it was just fun to read. And the heat between was well hot!! It was their story but the supporting cast was great also and I can't wait to read more about them. Definitely a must read!! I received this in exchange for a honest review.

Slade (Team Greywolf Series, #1) by Eva Gordon - Goodreads

Slade, Team Greywolf Series, Book 1 is a guilty pleasure. After entering into the Lycan world with Alpha's Pet, I cannot help myself from following this series.
