What others say about this ebook:

Review 1:

Binkow calls us to action again with a "just do it" approach to listening. Whether it be business or family, Binkow is the final push that actually makes us practice what the other gurus of listening have been begging us to do. Short, sweet, and effective.

Review 2:

If only the men in my life could have read this years ago I truly believe there wouldn't have been so many in my life! Mr. Binkow really hits the nail on the head in discussing communication between men and women.

Review 3:

Reading Howard's book has made me aware of the need to listen. I've noticed an improvement in my relations with others simply by trying to listen better than before. Also, his tips for paying attention and giving appropriate feedback were very valuable. It's worth reading simply to sit and take the time to think about how you communicate.
