What others say about this ebook:

Review 1:

The book covers much of the stuff I wanted to know, but there are a lot of things that it doesn't cover. With the online manual from Samsung not covering much I was a little disappointed that there wasn't more in the book.

Review 2:

This book contains incorrect information. I don't know if that is because of updates to the system after the book was written. The book is not as thorough as previous "For Dummies" books I have purchased.
