What others say about this ebook:

Review 1:

Kinda difficult to follow instructions.

Review 2:

I love this book as much as I do its predecessor (which is quite a feat, let me tell you). Although an origami aficionado, these are the only books I've ever seen to address this exquisite technique (Rokoan style). I love the breathtakingly beautiful photos, and look forward to mastering the techniques shown. In addition to their beauty, the symbolism and meaning of the crane would make any of these an extraordinary gift. Both books come with quite a few sheets of the gorgeous Japanese paper -- but, although that would be perfect, you can achieve glorious results (not to mention practice) with ordinary gift wrap. Highly recommended!
