What others say about this ebook:

Review 1:

I don't want to be mean but I cannot believe I read this whole book. I was actually angry when I reached the end because I wasted so much time reading it. I have read a couple of her other books and they were ok but this one was just too much. Never again.

Review 2:

Fascinating book. I love all of Sophie Hannah's work. Her plots are always complex but this book had two complex plots that are interwoven and dependent on each other.

Review 3:

Plot very hard to read. Was waiting for a twist at the end and end of story not satisfying. Main character, Justine, not a very nice person. Will try to read another of the authors books to better understand her.

Review 4:

I did not like the storyline of the book. I also thought it was very repetitive. I would not recommend this book.

Review 5:

Long-winded, with a ridiculous plot. Reminiscent of the Famous Five, except Enid Blyton did it better.
