What others say about this ebook:

**Review 1:**

I just forget I have this large Kindle library on my iPad - out of sight out of mind. Wish the iPad app came with the ability to organize the books.

**Review 2:**

General info but light on specifics.

**Review 3:**

This book breaks down the core to what makes up NLP and how to use it in any life event.

**Review 4:**

Excellent

**Review 5:**

If I had not borrowed this 47 page pitch to get your email address for a subscription to "free self-help books for kindle" from a BMS or PMS company, I would be demanding a refund. Primitive female thought in haphazardly scribbled text. The bonus audio link does not work. All you find out is the fact that NLP is a manipulation device for and by powerless losers. And they want you to subscribe.
